211, 213 and 215 South Side City Park,  
Complete House Furnisher on E Z Payments.

## END OF THE STRIKE.

The Much-Desired Consummation Reached Yesterday

AT THE CONFERENCE AT COLUMBUS, O.

Full Text of the Agreement by Which the Deadlock is to be Broken and the Wheels of Industry Again Set in Motion.

The End of the Great Coal Miners' Strike. COLUMBUS, O., June 12.—The great strike of coal miners inaugurated May 1 has been settled, and most of the miners will return to work next Monday. Since the beginning of this movement to benefit organized labor, thousands of miners have been idle, industries of all kinds have been compelled to reduce their running time and labor or suspend altogether, railroads have abandoned many trains, and idleness has been forced on thousands of men outside of those employed in mining coal.

The conference which brought about this much-desired and long-sought-for result met in this city Saturday morning. Operators of mines in Ohio, Pennsylvania, Indiana and northern and eastern Illinois were present, as were also representatives of the United Mine Workers, headed by President McBride. All day Saturday they struggled with the problem of arbitration and finally adjourned without result until yesterday morning.

At 10 o'clock the conference again met, but the scale committee almost immediately asked for an adjournment until 3 o'clock, and the different committees acquiesced.

When the miners and operators again met in the afternoon they found before them the proposition of Col. W. P. Read, of Chicago. Mr. Read submitted the following:

"The miners are to accept 60 and 69 cents per ton now, but after September 1, 1894, they are to receive 70 and 79 cents, the scale they are now demanding."

This was a step in the right direction, and the miners, adopting Mr. Read's suggestion, finally reached an agreement on this basis, which shall continue in force until May 1, 1895.

The Terms of Settlement. COLUMBUS, O., June 12.—The report of the scale committee was adopted unanimously by the conference of the miners and operators at 10 o'clock last night, and the conference adjourned sine die. It was noticed when the signatures were read that the miners had substituted for W. H. Murray and A. A. Adams, the men who stood out against compromise, John Fahy and Secretary P. A. McBryde.

The following is the full agreement resolution:

Resolved, That we agree that the rates for mining 2,000 pounds lump coal shall be as follows:

Pittsburgh, this vein, 69 cents; thick vein, 66 cents; Hoisting, 60 cents; Indiana bituminous, 60 cents; Indiana block, 70 cents; Streator, Ill., summer, 62 1/2 cents; Streator, winter, 70 cents; Wilmington, summer, 74 1/2 cents; Wilmington, winter, 85 cents; La Salle, Ill., and Spring Valley, summer, 72 1/2 cents; La Salle and Spring Valley, winter, 80 cents; other sections in the northern Illinois field at prices relative to the above.

Coal in Pittsburgh district, going east to tidewater, shall pay the same mining price as that paid by the Pecos and Westmoreland coal.

This scale of prices shall be in effect and bind both parties thereto, beginning June 16, 1894, and continuing until May 1, 1895, subject to the following provisions:

Provided, that the above-named scale of prices for the Pittsburgh district shall be generally recognized and observed.

It is further provided that operators and miners shall co-operate in their efforts to secure a general observance of said prices named for said district, and if during the period covered by this agreement a general recognition of the prices herein named for said district cannot be secured, either party to this agreement may call a meeting of the joint board of arbitration to meet at such time and place as those having authority may select; and said joint board, when so called, shall meet and determine, if able, whether the agreement has been sufficiently respected and complied with to warrant its continuance to the date named herein; if the board is unable to agree the members thereof shall select a disinterested man, whose decision shall be final. If it shall be found and decided by process above provided, that it is being substantially respected, it shall remain in force and bind both parties thereto for the period specified herein; and if found and decided by the same process not to be so generally observed as to warrant its continuance, it shall be abrogated and both parties thereto absolved from contract obligations herein set forth.

Wherever miners desire they shall be permitted to elect and place on the table as check weighmen, men of their own choice. Wages shall be paid on the above scale semi-monthly. All balances due on pay shall be paid in cash.

An interstate board of arbitration and conciliation, consisting of four operators and four miners, shall consider and determine upon any inequality complained of as between the different fields named in the above schedule of prices.

JOHN MCBRIDE, PATRICK MCBRYDE, JOHN M. CAHANE, JAMES DUNKERLEY, CANERON MILLER, P. H. PENNA, JOHN FARLEY, Miners.

J. S. MONTOR, H. L. CHAPMAN, Ohio Operators. F. L. DUBOIS, M. H. TAYLOR, Pennsylvania Operators. J. SMITH TALLEY, WALTER S. BOGLE, Indiana Operators. A. L. SWEET, E. T. BENT, Northern Illinois Operators.

John McBride said last night that while the settlement was not all he could wish it was all the miners could hope for under the circumstances.

## THE COAL BLOCKADE BROKEN

And the Coal Famine that Had Been Hanging Over Cleveland, O., Dispelled.

CLEVELAND, O., June 12.—The coal blockade on the Cleveland, Lorain & Wheeling and the coal famine that has been hanging over Cleveland has been dispelled.

During the past week the Baltimore & Ohio has accumulated nearly 1,000 cars of coal at Wheeling and Bridgeport. This has been let loose and is traveling toward Lorain and Cleveland. Sunday there were 325 cars handled by the Cleveland, Lorain & Wheeling, and 300 more yesterday. The management of the road is working day and night to get all of this coal over the line before bridges are burned and tunnels blown up. If the line is kept up, it will be able to handle nearly 300 cars of coal daily.

Yesterday morning General Superintendent Woodford sent the following telegram:

"We now have soldiers stationed at Boston, Maynard and Fitchburg. I do not anticipate any further trouble at either of these points. This morning we received a report that the bridge just north of Middlevale was on fire. We had an engine patrolling that track. The crew stopped at the bridge and tried to put the fire out, but were fired at several times. They pulled away, but returned in a short time, having put out their headlight, and all other lights, and quietly slipped in and succeeded in stopping the fire."

The temporary structure across Beaver Run was completed and ready for passage of trains at 5:15 yesterday morning.

Why Don't You Use Parks' Tea for headache, constipation and "that tired feeling." It purifies the blood, beautifies the complexion, acts upon the sluggish liver and moves the bowels every day. Only herbs and plants, safe, sure and pleasant. Sold by W. F. Neisler.

SOMETHING wrong when you tire too easily. Something wrong when the skin is not clear and smooth. Something wrong when the blood is impure. Everything right when you take Dr. Price's Sarsaparilla. It recommends itself. C. H. Dawson.

County Clerk,  
JAMES M. DODD.  
Sheriff,  
JERRY P. NICHOLSON.  
County Superintendent of Schools,  
JOHN G. KELLER.

The Republican congressional con-  
vention for this district will be held in  
Springfield next Thursday, June 14.

It would relieve the present monetary  
very much if once, "the tariff is a tax."

The maxim, "A public office is a pub-  
lic trust," has given way to a more pro-  
fitable one, namely, "The sugar trust is  
a public snafu."

Judging from the fact that the sugar  
trust hates Senator Hill, it can fairly be  
doubted whether that body considers  
him a Democrat.

In 1892 the Democrats promised to  
turn this country upside down, and  
everybody is satisfied they have done it,  
and that that party is under it.

The question of the Democrats captur-  
ing the Populists has been settled against  
the former as the Populists are captur-  
ing the Democrats. One half the Dem-  
ocratic party will be in the Populist  
ranks in less than four years.

HUNGARIANS, ITALIANS and SLAVS are  
being exported from Pennsylvania to  
Texas to work in the cotton fields. That  
is the only place in the United States  
where the importation of that class of  
people will improve the average of the  
civilization.

THE Prohibition convention in South  
Carolina Saturday adjourned without  
nominating a state ticket. There will  
be no danger of such a convention ad-  
journing in the North without naming a  
ticket. Even in Prohibition Kansas  
they propose to run a state ticket.

THE sugar trust contributed \$500,000  
to the Democratic campaign fund and  
have received in return, by a Democratic  
Senate, a concession amounting to \$50-  
000,000, which is to be taken from the  
people by a tax on their sugar and a  
postponement to 1895 of the sugar tax.  
The party that has done this is now ask-  
ing for the people's votes.

The kind of people who are saying  
that the present troubles are due to bad  
Republican legislation are the material  
Democrats are made of. The same  
people consider it an insult to suggest  
that the Democrats, after being in ses-  
sion, in congress, for over nine of the 15  
months they have been in power, have  
done nothing, and are not trying to do  
anything to correct the bad Republican  
laws, if there are any.

The board of supervisors of Tazewell  
county, which has notified the operators  
that the county will protect them in  
mining coal and will also protect those  
who mine it, has taken a very proper  
step. The strikers there have, by burn-  
ing a mine at the expense of the county,  
put themselves in a position where they  
are entitled to neither sympathy or con-  
sideration, and it is time their line of  
procedure should be upset by a strong  
hand.

THE McKinley law, for the protection  
of the American farmers' market, im-  
posed a duty on apples, imported, of 25  
cents a bushel, and \$1.50 a thousand on  
oranges. The Wilson bill repeals the  
duty on apples and leaves the duty on  
oranges unchanged. Apples are a north-  
ern product and oranges are a southern  
product. That makes the difference;  
but, all the same, the northern farmer  
will be asked to vote the Democratic  
ticket.

THE St. Paul Globe (Dem.) says that if  
anybody thinks the rank and file of the  
Democratic party is weakening on tariff  
reform he is woefully mistaken; that on  
the contrary their backs are stiffer than  
ever. This may be well said and all that,  
but more difficult than the tariff ques-  
tion is to the average Democrat, is the  
question of what use a stiff back can be  
put to without the brains necessary to  
make a stiff back respectable and catchy  
with the people.

Tax people of the country are crowd-  
ing the McKinley platform just now,  
and Democrats seem as anxious as Re-  
publicans. One year of Democratic  
rule is enough to satisfy everybody who  
wants to do right of the wisdom of the  
McKinley law. The tariff theory of the  
Democratic party when reduced to a  
simple sentence is this: A theory of how  
to rob your neighbor, but in practice it  
has knocked the everlasting stuffing out  
of everybody and those who voted for  
Grover Cleveland want to let go.

THE St. Louis Globe-Democrat says:  
"The Philadelphia Inquirer is trying to

count up the cost of one year of Demo-  
cracy. The loss in the volume of trade  
in ten months is placed at \$10,150,000,000,  
or twice the cost of the civil war, and  
these figures are from "Bradstreet."  
Other items are given, but this one  
seems to be enough for the present."  
This represents the awful destruction of  
the home market by the suicidal policies  
of the Democratic party, and yet there  
are people who will vote the Democratic  
ticket in spite of it all.

THE burning of the mine and the  
murder of two men at Wesley City,  
Tazewell county, will cost that county  
\$50,000. This will make the strike very  
expensive to those people. Allegheny  
county, Pennsylvania, that once before  
had to pay a large sum for the property  
destroyed by a mob of strikers, has  
again become liable for a large amount  
of money for property destroyed by a  
mob. Perhaps the people will eventu-  
ally learn that the county authorities  
must protect property, and that those  
who would destroy it are public enemies.  
It must also be borne in mind that the  
present governor of this state is pursu-  
ing the policy that the militia are not to  
be used to guard property.

\$100 Reward, \$100.

The readers of this paper will be  
pleased to learn that there is at least one  
dreaded disease that science has been  
able to cure in all its stages, and that is  
Catarrh. Hall's Catarrh Cure is the  
only positive cure now known to the  
medical fraternity. Catarrh being a  
constitutional disease, requires a consti-  
tutional treatment. Hall's Catarrh Cure  
is taken internally, acting directly upon  
the blood and mucous surfaces of the  
system, thereby destroying the founda-  
tion of the disease and giving the patient  
strength by building up the constitution  
and assisting nature in doing its work.  
The proprietors have so much faith in  
its curative powers that they offer one  
hundred dollars for any case that it fails  
to cure. Send for list of testimonials.

BISHOP WILLIAMS of Connecticut, the  
Presiding Bishop of the Episcopal church,  
though a very old man, is in vigorous  
health, and does all the work pertaining  
to his office without any trouble.

The Discovery Saved His Life.

Mr. G. Gaillouette, Druggist, Beaverville,  
Ill., says: "To Dr. King's New Dis-  
covery I owe my life. Was taken with  
La Grippe and tried all the physicians  
for miles about, but of no avail and was  
given up and told I could not live. Hav-  
ing Dr. King's new Discovery in my store  
I sent for a bottle and began its use, and  
from the first dose began to get better,  
and after using three bottles was up and  
about again. It is worth its weight in  
gold. We don't keep store or house  
without it." Get a free trial bottle at  
King & Hubbard's drug store. tm

ENGLAND sends us Irving and Terry,  
and America reciprocates with Corbett  
and Jackson. And yet we are prone to  
boast of the superiority of American  
productions!

A Sound Liver Makes a Well Man.

Are you Bilious, Constipated or trou-  
bled with Jaundice, Sick Headache, Bad  
Taste in Mouth, Foul Breath, Coated  
Tongue, Dyspepsia, Indigestion, Hot,  
Dry Skin, Pains in Back and between  
the Shoulders, Chills and Fever, &c? If  
you have any of these symptoms, your  
Liver is out of order, and your blood is  
slowly being poisoned, because your Liver  
does not act properly. HARBINE will  
cure any disorder of the Liver, Stomach  
or Bowels. It has no equal as a Liver  
Medicine. Price, 75 cents. Free trial  
bottles at Dawson's drug store.

THERE are all kinds of records. Here  
is the British ship Lydgate which made  
the record of 136 days from Shields, Eng.,  
to New York.

What's the Use of Talking

### PERSONAL MENTION.

Mrs. W. O. Rich is convalescent.  
Mrs. J. L. Drake is convalescent.  
F. M. Pratt left last night for Chicago.  
Supt. H. McCourt, of the Illinois Central, was in the city to-day.

Mrs. Henry McClellan is seriously ill at her home north of the city.

C. C. Stoddard will go to Ramsey Wednesday for a visit to relatives.

Miss Edith Lytle is spending a few days with relatives in Bloomington.

Mrs. E. B. Walton has gone to Paris, Ill., to attend the High School graduation exercises.

Byrd Davis returned to-day to his home in Champaign, after a visit with relatives in this city.

Miss Celia Katz arrived in the city Monday evening and is a guest of E. Sturm, 560 W. Decatur street.

Mrs. Walter Hutchins and Miss Sarah Derrick, grand chieftess of the Pythian Sisters of Illinois, went to Clinton to-day.

Dr. Geo. F. Hall went to Niantic this afternoon to address a Prohibition township meeting to-night. C. J. Holt went to Boody on the same mission.

Mrs. McCoy, who has been here visiting the family of W. T. Wells, left yesterday for Peoria and will proceed thence to her home in Westminster, Cal.

C. A. Hight, of Dalton City, was in the city to-day on his way to attend a meeting of the executive council of the State Bankers' association, of which he is a member.

H. Barney, the temperance evangelist, who has spoken in nearly every state in the union, is in the city to-day. He is a member of Decatur Lodge 364, I. O. G. T., and will meet with them to-night. He begins a series of meetings at Latham Friday.

Alfred Weaver, who was so seriously injured a week ago by a runaway team, is reported better and stands a fair show of getting well. At times he is yet somewhat delirious, but in his lucid periods he recognizes those about him very clearly.

J. C. Gates and his mother, Mrs. J. T. Gates, left yesterday afternoon for Jacksonville to attend the commencement exercises at the Deaf and Dumb institution there, from which Hugh Gates, brother and son, graduated last evening. Mr. Gates has been in attendance upon the institution eleven years. He has taken the full course of study.

JOHN H. HUMMELL, an old-time printer, son of Henry and Rachel Hummell, for long time a resident of Decatur, died at his home in Seattle, Washington, last week, aged 64 years. He married Miss Mary Stockton in Decatur in 1853. She survives him, with several married sons and daughters. Mr. Hummell's widow is a sister of Mrs. B. F. Lanham and Mrs. L. McKinnis, of this city. Mr. H. died quite wealthy.

### The Tour of the World.

All the numbers of the Photographic Tour of the World have been received at the REPUBLICAN office, and those who have only taken part of the series should call at once and fill up their set. No one who started in can afford to be without the entire set of portfolios of this magnificent work.

The militia have left Pana, but the disturbance is not over. Trouble is feared, and in fact we don't see how it can be avoided. Everybody knows that the room occupied by Phillips & Co. with the Kimball pianos will not accommodate more than 500 people, and yet everybody will want to be there.

SOLON PHILLIBRIK, of the firm of Gere & Phillibrik, was requested to give a legal opinion on the right of women under the present act to vote for or hold the office of trustee of the University of Illinois, and after a careful study of the question he has given it as his conclusion that they have not.

### Bachman's Baby

Buggies are here; 50 different styles; the most beautiful line ever shown in the city, and at prices to suit the times. Don't fail to see them. We will sell you a buggy on payments.

## TROOPS TAKEN AWAY.

Evacuation of Pana by the Military—All Quiet.

Only one Arrest Last Night—Campers Fed by Pana Strikers.

The end of the strike trouble throughout the country seems to have been reached at last, as will be seen in the press telegram from Columbus, Ohio, which appears on another page. A new scale of wages has been agreed upon between the operators and miners at points in the east and west where there were grievances, and the scale has been ratified. Now the natural thing for all of the strikers to do is to rush back to work, but as yet there has been no step taken in that direction in Decatur. Nothing doing to-day at the mines in this city. Possibly the men have not heard of the agreement yet, or perhaps they are waiting for President Crawford or some other official to give them the word, declaring the strike off. Possibly there will be some new developments by Wednesday or Thursday, when it will be possible for people to get coal instead of wood for business and domestic purposes.

Supt. Armstrong, of the Decatur company, has not been approached by any of the local miners. He is wholly in the dark as to their intentions. Parties here who have been watching the strike believe that the Columbus agreement settles the whole business. It is a sympathy strike in Decatur, and now that the new scale has been ratified the men have no cause to remain out longer. All of the miners are to be congratulated on the settlement of the trouble, and communities dependent upon mines for fuel ought to feel good over the long delayed agreement, reached at last.

There were quite a number of people at the Union depot last night to see the Chicago regiment pass through the city en route home from Pana.

DEPARTURE OF TROOPS.

PANA, Ill., June 11.—The 1st Regiment, Illinois National Guards, left for Chicago on a special train this evening at 9 o'clock. At 1 o'clock this afternoon Adjutant Gen. Bayle and Sheriff Henry W. Johnson went out to the camp of the Springfield miners, three and half miles from town, and two hours later they returned and announced that they had found the visiting miners docile, sober and law-abiding. Their camp was under strict discipline and no kind of liquor was permitted on the ground and intoxicated persons were debarred.

The Adjutant General said that he and the Sheriff decided that the troops were no longer needed here. The troops were ordered to pack up at once. The departure of the troops in the face of a mob of strikers within sight of the city and a hostile union of 400 miners caused uneasiness and indignation among a certain class.

The North shaft was closed down to-day. There were small forces at work in the mines. Several cases of guns of the state arrived from Springfield to-night and were left with the sheriff for use by his deputies to guard the mines. They were shipped to Springfield from St. Louis Friday. The sheriff says the local mines are in less danger now with the guns in the hands of deputies than they were with the guns in the hands of the militiamen, who could not guard private property. Seven intoxicated men were jailed soon after the soldiers left, and more arrests are likely before morning. Deputies came in from the North shaft on the outskirts of town at 11 o'clock this evening after re-enforcements, trouble being feared at that shaft before daylight.

MINERS WORKING AT PANA.

No Trouble with Strikers—Citizens Able to Defend Themselves.

[Special to the REPUBLICAN.]

PANA, June 12—2:30 p. m.—Pana felt a little shaky last night after the soldiers left the town and extra precautions were taken to keep down the disturbing element. There was only one arrest and that was for drunkenness. This morning 100 men went down in the mines. There was no demonstration against them. The strikers are still in camp at Pope's Grove. Pana miners are feeding them. Citizens of Pana think they will be able to take care of themselves in a fair fight, but they do not know what may happen if the strikers take a notion to use dynamite. The state of feeling generally is not what is desired. There is a state of uncertainty as to the outcome. The strikers at the camp will be kept there if possible.

BRIDGE BURNED BY STRIKERS

Who Gather in Force at Midvale—Serious Trouble Expected.

URICHVILLE, O., June 12.—Yesterday afternoon a 235-foot bridge, spanning the Big Stillwater on the line of the Cleveland, Lorain & Wheeling, four miles north of this place, near Midvale, was destroyed by fire, supposed to have been started by rioting miners who, about 300 strong, congregated there from all parts of the surrounding country. One Italian was

shot in the head with buckshot by the guard at the bridge and seriously injured.

A large number of miners attempted to gut the hardware store of D. C. Foster, of this place, of firearms and ammunition, to be used at the scene of the riot at Midvale. The timely arrival of help prevented the robbery.

Serious trouble is expected. Several regiments of militia are expected from the south end of the Cleveland, Lorain & Wheeling to go to Midvale.

### The Captive Miners Released.

UNIONTOWN, Pa., June 12.—At noon yesterday a posse of deputy sheriffs found the captive workmen in a camp of the strikers near Kyle, and effected their release without a conflict. The men bore evidence of rough treatment, but were not seriously injured. They were brought to Uniontown, and made information against the strikers who had held them prisoners. They were then taken to their homes at Leisenring.

### No Call and No Conference.

ALTONA, Pa., June 12.—There was no conference of miners and operators in this district in this city yesterday. Secretary Davis denies having sent out a call for such a meeting.

### CAPTURED A SEALER

After a Test of the Sailing Qualities of the Cruiser Mohican.

WASHINGTON, June 12.—A telegram received in this city yesterday states that the United States steamer Mohican had, after a chase that taxed her sailing qualities not a little, captured a sealing vessel against which evidences of violations of laws and treaties were complete.

When first sighted by the Mohican, the vessel left no doubt of her unlawful cruising, and the effort she made to escape verified the first view of the naval authorities.

As soon as the Mohican was within easy range the positive manner of the Mohican compelled her to heave to, and the sealer's capture was effected, though she had led the United States ship a very exciting race.

Further details are wanting, but the main facts are incorporated in the brief telegram received in this city. The navy department has not been advised, but this is probably because of the lateness of the hour at which the report reached Port Townsend, from whence the information was telegraphed.

Telegrams from the same source mention a recent narrow escape from drowning of a party of twelve members of the United States coast survey while endeavoring to make a landing through the surf near Port Townsend. The boat in which they were attempting to enter the harbor, was lost, together with a quantity of stores, but the officers and crew escaped with a drenching.

### To the Afflicted.

Room 6 in the Wingate block is becoming known all over the city. The celebrated Long Dupurator Co. is located there and the benefits of the treatment can be vouched for by hundreds of people. If you are troubled with lung troubles, catarrh, or in fact, any chronic trouble, call and give the treatment a thorough test. Remember this is not an experiment but the product of years of study by eminent medical scientists. Try it and be convinced.

When Apollo touched his lyre the gods and goddesses left off their ordinary avocations and came around to enjoy the heavenly strains. Now if Apollo had only thrown away his old lyre on taken a Kimball piano, he might have run things more evenly. Call and Phillips & Co. in the Wingate block and see about it. 12-41

CHARLES H. DEETZ to-day concluded the sale of his new residence on North Water street to Mrs. Mary N. Willey. The sale was for \$4,500. This makes \$15,000 worth of property Mr. Deetz has built and sold in the last year on North Water street.

### MARRIED.

On Monday, June 11, by Rev. Geo. F. Hall, at 304 East Orchard street, at the home of the bride's mother, Emory Birks and Miss Maud M. Owen.

The couple have gone to Beardstown on a visit. They will return in a few days to reside at 1146 North College street. Mr. Birks is an employee at the Steam Bakery.

It was 90 in the shade this afternoon; 94 yesterday at the same time.

HENRY W. GRADY, a son of the Georgia orator has just been admitted to the bar at Atlanta, after passing with credit a severe examination. He resembles his father both in appearance and mental endowment.

### A NEW SUN MOTION.

Professor Stevenson Has Completed a Wonderful Invention After Years of Labor.

Professor E. E. Stevenson, a well known educator and writer of Quincy, Mass., announces the completion of an invention on which he has been laboring for years, which, he says, will revolutionize the present methods of obtaining motive power. Professor Stevenson has pursued his investigations and experiments in Quincy all winter and has at last brought his idea to a head. Professor Stevenson said: "The forces which have thus far been utilized by the genius of man are the laws of gravitation and chemical reaction. In the broad field of research and investigation we find the possibilities of the future in molecular attraction, musical vibration and the refraction of light."

"To understand the theory on which I have been laboring you must understand the correlation of forces or the transmission of energies. We use force to produce light. It is upon the reverse of this theory that I have labored, and my experiments are at last proving satisfactory. I have found that the heat of an ordinary kitchen stove generates enough sufficient, if controlled, to drive the machinery of the Pillsbury mills, and the flame of a Bunsen electric burner would furnish power to light by electricity 1,000 lights."

In Professor Stevenson's experiment machine, however, the heat of the sun alone has been used. This machine consists of three brass cylinders connected by means of tubes and valves with a glass reflector behind the central cylinder. A piston moving laterally connected with a balance wheel gives the motion. The shaft on which the balance wheel turns passes through the center of the machine and out as a drive shaft, which makes the force available. The machine is operated by the sun, working with great rapidity.—Boston Journal.

### SOMETHING IN THIS NAME

But the Man Whose Property It Is Was He Had Not Recalled It.

The mystery that has been surrounding the identity of David Draughn has been solved and in a way that is likely to give David much trouble. Draughn was several weeks ago dragged from the road tracks in the south end of the city just in time to save him from being hanged. It was then discovered that he had been beaten almost to death. He was carried to the Grady hospital, and when he recovered physically it was found that his mind was a perfect blank as to past events—so much so that he even did not know his own name.

Finally under the care of the surgeon there came back inklings of the past, and one day last week he electrified everybody about the hospital by rushing about and declaring he "had it." He had caught what he said was his last name. He was taken by detectives up into North Carolina, and at Culberson, near Murphy, he found friends, but he was not Draughn at least not there. He had been known there as Dr. F. D. Heath and had been there for several months last summer. But Heath and Draughn are one and the same man, and it developed that under the former name he has three living wives. One lives in Salem, No. 2; Asheville and No. 3 in Bryson City, Va. His mother, Mrs. Frank Barr, the wife of a printer, also lives near Salem. He will be prosecuted for bigamy and very sorry he has found out who he is.—Atlanta Cor. St. Louis Republic.

### A Loaded Farm.

For many years a sandy mound on the H. A. Maize farm, just south of the city has been known as the hiding place of the fox. This winter the animals have been unusually numerous and created havoc in the henneries. The losses became so great that the farmers held a meeting and decided to blow up the mound and rid themselves of the pest. A large quantity of dynamite was purchased, and four large charges were put into the ground. For some reason the fuses failed to discharge the explosive and the stuff is now burned in the mound. The mound is one of the most productive spots on the farm, and as the farmers do not know just where the dynamite has been in a pickle to know what to do as he is afraid to dig into the mound for fear he may strike the stuff and send himself to kingdom come. The owner of the farm insists that the dynamite must be found, as he realizes that the fact of it being buried on the farm is going to hurt the sale of the farm or forever render several acres of his best land valueless.—Woooster (O.) Dispatch.

### Hot In Australia.

The weather in Australia during the antipodean summer has been unusually hot and oppressive. In Adelaide during January the thermometer several times registered over 100 degrees in the shade and one day it climbed to 107 in the shade and 103 in the sun. In Melbourne the 100 mark has been reached more than once and the scorching north winds have made the atmosphere exceedingly oppressive. The foregoing figures are from weather observatory readings, and probably do not represent by several degrees the temperature of the city streets. Melbourne Letter.

### Marriage on Trial.

A romantic marriage occurred recently at Fulton, 25 miles from the city. Adolph Elkins and Miss Alice Maher were the contracting parties. They agreed by a year that they would be married life a year, and if found disagreeable to either he or she was at liberty to withdraw from married life, to marry another or to remain single. The marriage was solemnized at Fulton (Ky.) Dispatch.

### A Flourishing Community.

The little town of Klingenberg, Mo., derives so large a revenue from clay pits that the citizens not only prosper, but receive annually a nice little sum out of the funds of the town. Last year indeed every young man in the township who was drawn for the purpose was taxed to a Christmas present to the public treasury.—Leavenworth.

# AWING TRADE.

Do not believe that it pays to advertise at a cut price and then when your customer calls for it to be out of it or to get more for it. When we advertise certain goods you will find them just as advertised.

## THE BEST OF MIMICS.

An Insect Which Looks Exactly  
 Like a Leaf

Why the Phyllium Scythe Is Exceedingly  
 Difficult to Detect in its Haunts--It  
 Imitates Twigs as Well  
 as Leaves.

There is, perhaps, no other group of  
 insects which in form and color are so  
 generally imitative, and which  
 naturalists have found more difficult  
 to detect in their haunts. Their  
 bodies often resemble the roughened  
 bark of the trees among which they  
 live; or they seem to have growing to  
 them little flecks of lichen or moss,  
 which add to the deception. The dis-  
 guise of the walking leaf Phyllium is  
 the more striking to a naturalist be-  
 cause he will notice that whereas  
 among all other members of the tribe  
 the wing-covers (when they exist) are  
 greatly abbreviated, the very opposite  
 is true in Phyllium, the wing-covers,  
 the only members which could be  
 made to resemble a leaf to perfection,  
 being greatly developed, while the  
 wings are aborted, as if the wing-cov-  
 ers were here developed for the ex-  
 press purpose of this mimicry.

Twenty-five years ago, at the Jardin  
 d'Acclimation at Paris, some of these  
 walking leaves were exhibited alive.  
 They were placed on growing plants,  
 from which the larger part of the  
 leaves were stripped, that the insects  
 might not too easily conceal them-  
 selves. If a large placard announcing  
 the presence of these creatures had  
 not drawn attention to them, certainly  
 no one would have recognized any-

thing extraordinary; and even as it  
 was many a person, after examining  
 the case with care, left without seeing  
 anything but the plant, and with the  
 opinion that what the placard told  
 them to look for was some minute  
 object too microscopic for their sight.  
 Even those who knew what to expect  
 had often a long search to discover what  
 was in reality in full sight.

The same was true of the living  
 specimens at Edinburgh. Of one of  
 them Murray says: "For the greatest  
 period of its life it so exactly resem-  
 bled the leaf on which it fed that when  
 visitors were shown it they usually,  
 after looking carefully over the plant  
 for a minute or two, declared that they  
 could see no insect. It had then to be  
 more minutely pointed out to them;  
 and all hereafter seeing is notoriously  
 difficult. In fact, it looked so abso-  
 lutely like the leaves among  
 which it fed that this test rarely  
 failed, and nothing would con-  
 vince them that there was a real live  
 insect but the test of touch.

By this imitative resem-  
 blance, the Phyllium is quite as com-  
 plete in its disguise as the walking  
 stick, and its long stiletts proper.  
 The Phyllium, familiar with  
 the forest, says that in  
 the forest they are found "hanging  
 from the limbs that line the forest  
 and they resemble ticks so ex-  
 actly in color, in the small rugosities  
 of the bark, in the knots and small  
 branches imitated by the joints of the  
 legs, which are either pressed close to  
 the limb or stuck out at random, that  
 it is a utterly impossible by the eye  
 alone to distinguish the real dead  
 twig, which fall down from the trees  
 from the living insects." And he adds  
 that he has "often  
 looked at them in doubt, and has often  
 been obliged to use the sense of touch  
 to determine the point."—Samuel H.  
 Scudder, in Harper's Magazine.

### Discoloration of Piano Keys.

The process of discoloration in ivory  
 proceeds more rapidly when light and  
 air cannot get to it than when it is ex-  
 posed to their influence. This is espe-  
 cially the case in the keys of a piano-  
 forte, which often exhibit a distinctly  
 yellow hue. A recent invention is de-  
 signed to prevent this discoloration,  
 and consists essentially in so construct-  
 ing the casing of the keyboard that the  
 keys shall always be exposed to the  
 light and the atmosphere. Silvered  
 glass gathers and reflects the light on  
 the keyboard, to which the air also has  
 free access, and the inventor claims  
 that by this arrangement the attrac-  
 tiveness of the exterior of the instru-  
 ment is greatly enhanced.

### A Mammoth Object Glass.

The first glass disk used by the  
 Clark in making the great objective  
 for the Lick telescope was cast  
 in Europe by M. Feil. Its original  
 diameter was 38.19 inches, its thick-  
 ness 21.65 inches and its weight 870  
 pounds. It was, 39 days from the date  
 of the casting before Prof. Feil dis-  
 covered that it had cooled sufficiently to  
 allow of safe removal from the mold.

### California Pearls.

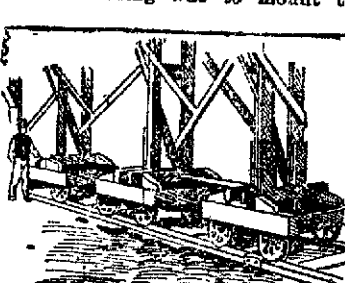

Many California pearls are black and  
 speckled. They are considered more  
 valuable than the white pearls of  
 Europe.

## MOVING A HUGE SHED.

Two Railroads Required to Perform the  
 Herculean Task.

The art of moving large buildings  
 has within a few years reached a won-  
 derful development. A few weeks ago,  
 for instance, an immense shed, con-  
 structed from timber and iron, in  
 Rouen, France, was transferred a dis-  
 tance of several hundred feet from  
 its original site without being taken  
 down and rebuilt. The structure had a  
 length of 164 feet and a span of 97, and  
 weighed 180 tons.

Of course the most difficult part of  
 the undertaking was to mount the

shed on wheels; hauling and depositing  
 were easier tasks. Le Genie Civil, a  
 French scientific publication, says that  
 the frame of this building was com-  
 posed of twelve trusses, mounted on  
 twenty-four double posts. A dozen of  
 the latter, obviously, were on one side  
 and a dozen on the other. Along each  
 row, and thence to the new site, tracks  
 like those of an ordinary railway were  
 laid, and then a car was constructed  
 around each post in such a manner  
 that, when all was ready, the whole  
 twenty-four supports could be lifted  
 by jackscrews simultaneously and  
 fixed to the cars. Each dozen of  
 the latter were then interconnected  
 properly by iron rods. Traction was  
 effected by cables fastened to piles  
 driven into the earth at the end of  
 the route, led through blocks on the  
 forward trucks and wound on a winch  
 inside the building, where the power  
 was applied.

When the big Brighton Beach hotel  
 was shifted to a new foundation in  
 April, 1888, to get it out of the reach of  
 the waves, twenty-four tracks and 112  
 cars were used, and the pulling was  
 done by six locomotives. That struc-  
 ture, by the way, measured 400 by 180  
 feet, and probably weighed five or ten  
 times as much as the one just referred  
 to. So the undertaking on the Long  
 Island shore was a more formidable  
 one than that in Rouen. Neither of  
 them, perhaps, is quite so remarkable  
 as the moving of large masonry build-  
 ings, which have no elasticity what-  
 ever, in this country, within the last  
 year or two; but they are rare, and  
 novel enough to deserve mention.—N.  
 Y. Tribune.

### Ballard's Snow Liniment.

This invaluable remedy is one that  
 ought to be in every household. It will  
 cure your Rheumatism, Neuralgia,  
 Sprains, Cuts, Bruises, Burns, Frosted  
 Feet and Ears, Sore throat and Sore  
 Chert. If you have Lame Back it will  
 cure it. It penetrates to the seat of the  
 disease. It will cure Stiff Joints and  
 contracted muscles after all other reme-  
 dies have failed. Those who have been  
 cripples for years have used Ballard's  
 Snow Liniment and thrown away their  
 crutches and been able to walk as well  
 as ever. It will cure gonorrhea. Price 50  
 cents. Sold by Dawson's Drug Store, a

The city fathers of El Paso, Tex., have  
 issued an edict against the bifurcated  
 skirt. The emancipation of woman isn't  
 making strides in that part of the coun-  
 try.

### Cure for Headache.

As a remedy for all forms of Headache  
 Electric Bitters has proved to be the  
 very best. It effects a permanent cure,  
 and the most dreaded habitual sick  
 headaches yield to its influence. We  
 urge all who are afflicted to procure a  
 bottle, and give this remedy a fair trial.  
 In cases of habitual constipation Elec-  
 tric Bitters cures by giving the needed  
 tone to the bowels, and few cases long  
 resist the use of this medicine. Try it  
 once. Large bottles only Fifty cents at  
 King & Hubbard's drug store.

The petrified body of a woman bear-  
 ing a wound indicating a violent death  
 was found near Jerseyville, Ill.

### What is a Guarantee?

It is this. If you have a Cough or  
 Cold, a tickling in the Throat, which  
 keeps you constantly coughing, or if you  
 are afflicted with a Chest, Throat or  
 Lung Trouble, Whooping Cough, &c.,  
 and you use Ballard's Horehound Syrup  
 as directed, giving it a fair trial, and no  
 benefit is experienced, we authorize our  
 advertised agent to refund your money  
 on return of bottle. If it never fails to  
 give satisfaction, it promptly relieves  
 Bronchitis. Sold at Dawson's Drug  
 Store.

This is the time of year when the  
 face boy's invalid relative dies in about  
 nine innings.

### Bucklen's Arnica Salve.

The Best Salve in the world for Cuts,  
 Bruises, Sores, Ulcers, Salt Rheum,  
 Fever Sores, Tetter, Chapped Hands,  
 Chilblains, Corns, and all Skin Eruptions,  
 and positively cures Piles, or no pay re-  
 quired. It is guaranteed to give perfect  
 satisfaction, or money refunded. Price  
 25 cents per box. For Sale By  
 KING & HUBBARD.

OVER 150 flags are a necessary part of  
 the outfit of every American warship.

### RUDY'S PILE SUPPOSITORY

is guaranteed to cure Piles and Constipa-  
 tion, or money refunded. 50 cents per  
 box. Send stamp for circular and free  
 sample to MARTIN RUDY, Lancaster,  
 Pa. For Sale by W. A. Dixon & Co.,  
 Druggists, Decatur, Ill.

A LATVIA (Wash.) man has invented a  
 bicycle which he claims will successfully  
 run on the single track of a railroad.

PURE blood means good health. Re-  
 inforce it with DeWitt's Sarsaparilla. It  
 purifies the blood, cures Eruptions,  
 Eczema, Scrofula and all diseases arising  
 from impure blood. It recommends  
 itself. C. H. Dawson.

Let me remind you that now is the  
 time to take DeWitt's Sarsaparilla. It  
 will do you good. It recommends itself.  
 C. H. Dawson.

# Everything Goes.

After taking an inventory I find that I have more stock  
 than I thought, consequently I will

## Unload My Summer Goods Regardless of Cost.

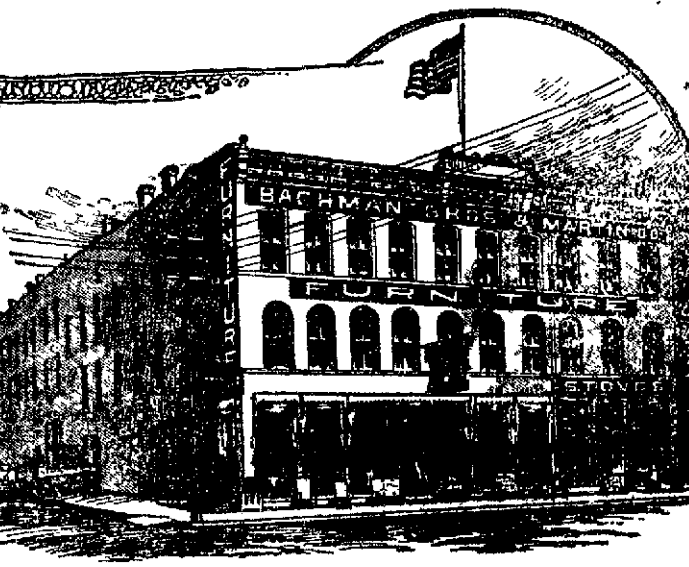

### Women's hand-made Tan, Chocolate and Ooze Shoes, worth \$4, \$3.50 and \$2.75, Go at \$1.00 and \$1.50.

Low colored shoes in proportion. Children's Oxfords at the price of  
 the leather to make them. Be sure and see me before you buy summer  
 goods. Visit the greatest shoe sale ever witnessed in Decatur. Closing  
 out means I am positively retiring from the retail shoe business.

Respectfully,

# W. F. BUSHER.

## Mid-Summer Sale.

Owing to the stringency in the money  
 market we have been able for Spot Cash to  
 fill our house with Goods of the Latest  
 Styles for less than Cost to Manufacture  
 them. And we propose to sell these Goods  
 Regardless of Value. We can sell you  
 Goods for less than our competitors can  
 buy them. Look elsewhere and no matter  
 what price goods are offered you, come and  
 compare our prices and we will sell you.

Space will not permit our quoting prices upon our immense stock. Here are a few  
 prices that will convince you THAT WE MEAN BUSINESS.

Dining Chairs from \$2.00 per set up. Square Extension Table, \$3.50. Rockers, 75c. Center Tables, 75c.  
 Solid Oak Sideboard, Beveled Edge Glass, \$10.50. See our \$20 Sideboard, worth \$27.50.
